NEW SITE REQUIRED

Long established school seeking new site to expand and meet growing demand for enrolments.

- Site Area - 3,000 - 6,000m²
- Location - Woollahra, Waverley, Randwick LGA
- Purchase or tenant options considered. Long lease.
- Adaption of existing private or public buildings considered e.g. commercial or government space.
- Outdoor space, or ability to create an outdoor environment.

Montessori East Primary & Pre School Bondi is looking to relocate and expand to meet growing demand for its education model. Various options will be considered in finding the optimal solution.

Expressions of interest close 1 December, 2016
Montessori East was established as a preschool in 1979, and since then has grown to encompass an infant and primary school programme. Currently situated in Bondi the school offers a Montessori education for pre-primary (3-6 year olds) and primary aged children (6-12 year olds).

The Montessori method is unique in that it allows teachers to guide students and to treat each child as an individual, encouraging children to become life-long learners.

The schools Montessori curriculum is recognised internationally and is linked to all outcomes from the NSW Board of Studies syllabus.

The school is non-denominational, co-educational and supports a multi-age classroom environment.

Montessori East is seeking EOI from a broad range of organisations to achieve its objective to move to a larger site.

The new facility is to accommodate a primary and preschool and potentially a high school, teacher training facility and community space.

We would ideally seek to remain within the existing student catchment area of Woollahra, Waverley and Randwick LGA.

The school is prepared to consider repurposing or developing an existing property. Scenarios may include incorporation into a new development.

A detailed brief is available upon request.
